Anatomy & Physiology Certificate - level 1

DISTANCE LEARNING
12 months part-time (240 hours)

Anatomy is the study of the structure of the body and the physical relationships involved between body parts. Physiology is the study of how the parts of the body work, and the ways in which they co-operate to maintain life and health of the individual. Pathology is the study of abnormalities and how they affect body functions often causing illness. This subject will teach students about the structure, general function and organisation of the following human body systems: Cells, Tissues, Skin, skeletal, muscular, circulatory, respiratory, digestive, urinary, nervous, special senses, endocrine, reproductive, lymphatic, immune

Course Duration

Recommended timeframe for the completion is approx 12 months part-time.
Students have a maximum of 2 years to complete this course upon application (Fees apply).

Delivery Mode

Distance education (correspondence).

Intake dates:

There are no intake dates for distance learning courses, you can commence at anytime during the year.

Prerequisites

There are no prerequisites for this course.

Who should undertake this course?

This training is suited to anyone who has an interest in how the human body works. This course is designed for future health professionals who are just beginning their exploration of the complex human organism. It not only presents introductory material on the elegance and efficiency of the human body, but it also shows what happens when things go wrong. To truly understand the human body, one must appreciate both normal and abnormal structure and function.

Course Fees

The upfront investment for this course is \$1095.00

Accreditation

As this course articulates with several other courses, there is no separate accreditation.

ANATOMY & PHYSIOLOGY LEVEL 1

Course Structure

Unit Name	Assignment Structure	Due
1. Cells and Tissues	Twelve (12) questions	Month 1
2. Skin	Five (5) questions	Month 2
3. Skeletal System	Fourteen (14) questions	Month 3
4. Muscular System	Nine (9) questions	Month 3
5. Circulatory System	Four (4) questions	Month 4
6. Respiratory System	Nine (9) questions	Month 5
7. Digestive System	Six (6) questions	Month 5
8. Urinary System	Five (5) questions	Month 6
9. Nervous System	Eighteen (18) questions	Month 7
10. Special senses System	Eight (8) questions	Month 7
11. Endocrine System	Nine (9) questions	Month 8
12. Reproductive System	Seven (7) questions	Month 9
13. Lymphatic System	Six (6) questions	Month 9
14. Immune System	Five (5) questions	Month 10
Exam	Made up of four parts consisting of Terminologies, Multiple choice, True & False Questions and Short Answer Questions.	Month 12

Course Materials (inclusive of fees)	<p>All texts and notes are included in the price of all our courses so students are not having to find extra money throughout their studies. Our very competitive course investment includes 1 Manual, a textbook, a professionally developed audio CD program and the support of our tutor/s.</p> <ul style="list-style-type: none"> • Adult Learner audio compact discs (1) • Anatomy & Physiology Level 1 audio compact discs (8) • Ross and Wilson, Anatomy & Physiology • Anatomy & Physiology Level 1 manual • A personal tutor is allocated to support learning throughout the course.
Assessments	14 assignments comprising. Each Assignment will be based on each of the systems covered in the manual supplied. It is the responsibility of the student to cover all relevant objectives.
Examinations	Final exam can be taken under supervision externally.
